

7.2.1 II –

Title of the practice:

2. 24×7 Application of social media for Prompt Mentoring

Objective of the Practice:

Best practice of our Institution is based on the following objectives,

- To increase teacher – student contact hours
- To use them this forum as query tools
- To identify counter needs of students
- To motivate them in curricular and extracurricular activities
- To locate the problems of students and to address them in this regard
- To attain academic progress of adopted students.
- To convey in advance day notices and activities, etc.
- Allow them to exchange their opinion & ideas on different issues
- To establish a healthy and good relationship between teachers and students.

The Context:

The students of current generation are multidimensional and undergoing heavy academics along with social and financial concerns to maintain & to focus on overall & holistic development, hence, the monitoring of students is essential for better performance in academics & other activities.

Though, Mentor-Mentee scheme is in practice since several years but there are certain limitations of actual contact particularly during pandemic covid-19. To strengthen this scheme, IQAC of our institution has decided to use social media in general and ‘whats app’ groups of mentor-mentee in particular for effective mentoring. In doing this our main aim was to keep in touch with students for 24×7 by providing counseling/guidance through social media by their respective mentees.

The practice:

Since use of mobile phone and social media is a boon of new technology for young generation in their day-to-day life. Use of ‘whats app’ for chatting and sharing contents is common now a days. Many a times it is easy to the mentors for better communication and overall development of mentees by using this platform. Hence IQAC of our institution has

decided to form Mentor-mentee '*whats app*' groups and asked them to use social media to remain available 24×7 with each other.

So the aim of this practice is to involve the concern students who are learning in our institution. Hence, the institute is committed by its vision to be responsible for the students overall development of the students.

In the beginning of academic year Mentor-mentee groups are formed. There are approximately 15-20 students allotted as mentee for the specific time of one year course duration to the mentor. All the mentors contact students and make them aware of the practice and form the '*whats app*' groups. During the academic year both mentor and mentee are in contact for 24×7. Mentor uses *whats app* groups exchanging various lectures PPT's, audios, videos, Notices, NSS, and other activities.

We found this practice was more effective during Pandemic Covid-19. Mentors have used this platform for mentoring their mentees during pandemic period. During lockdown, colleges were closed and it was essential to make a strong rapport between teachers and students to attain their goals with the use of social media.

Evidences of Success:

- Efficient lines of communication between students & the teachers about their overall development.
- Friendly interactions with college- student-teachers.
- Team spirits among the faculty members and students.
- Develops hobbies of observations of the college activities & progress of students.
- During pandemic teachers and students could remain in contact with each other for 24×7. Which helped students to remain in the stream of education. For the above-mentioned facts following are some evidences,
- One time feedback of students enrolled during current year by using Google form has been taken and analyzed.
- One time feedback of students completed degree programs during academic years 2019-20 and 2020-21 by using google form has been taken and analyzed.
- Screen shots of '*whats app*' group of mentor-mentee.

Problems Encountered and Resources required:

The prime objective of this activity is to convey overall development of the students & the academic activities implemented in the college for the students

The following problem have been encountered,

- Network connectivity- due to technical difficulty it arises network problem in the rural area in the periphery of the college.
- Still some students are dependent on parents mobile.

**Mentor-Mentee : A.Y :- 2019-2020, 2020-2021
and 2021-2022**

BEST PRACTICE: 24×7 Application of Social Media for Prompt Mentoring

Mentor Mentee Feedback Analysis Report

Analysis Report of One time Mentor Mentee Feedback Taken during current year students and from Pass Out Students of A.Y. 2019-2020 and 2020-2021:-

To strengthen Mentor-Mentee scheme for better communication with students, our college teachers have introduced WhatsApp group since **2018-2019**. This initiative is aimed to provide better insights about concerned subjects/program and also to guide the students about curricular and extracurricular activities in advance.

At the beginning of each academic from 2018-2019 to 2021-2022 after the completion of admission procedure the students (Mentee) were distributed to the teachers (Mentors). For the evaluation of outcome of the Practice one time feedback from students is collected through Google form. Google link was circulated on their respective emails and WhatsApp groups by teachers to their mentees.

**Following Mentor-Mentee feedback for current year students and from Pass Out Students of
A.Y. 2019-2020 & 2020-2021 through Google form:**

The students were 24 X 7 connected with teachers through this practice. The feedback collected through students shows that all of the students were benefited with it, it was a good experience for teachers to get directly connected to their mentees. In the feedback form we asked them that Mentor-mentee scheme by using social media is how much effective then many of them gave the answer that it is an excellent scheme further we asked them that does your Mentor (teacher) takes active interest in promoting social media (e.g.whats app groups), Some of the key highlights of feedback analysis:

1. IT facilities (Communication using Email/online teaching) opportunities for students.
Response: Where many of the students, said that it was regular activity.
2. Students were asked that how well did the teachers respond your queries through whatsapp group?
Response: Where the students said we were satisfied with the mentor.
3. Students were asked that the teacher's approach to communicate through social media and using ICT can best be described as were
Response: student replied that it was a excellent.
4. Students were asked that fairness of the mentor-mentee process by the teachers.
Response: most of them replied it was always a fair process.
5. Students were asked that is the teaching and mentoring process in your institution facilitates you in social and emotional growth
Response: where maximum replied as very well
6. Students were asked that what extent teacher provides study material, recent trends, news related to subject
Response: Most of the students replied during the Pandemic it really helped us.
7. Students were asked that what extent teacher informs you in advance regarding event or activities to be organized in institution
Response: Most of the students replied they often get updates on whatsapp group.
8. Students were asked that what extent your teacher provides information regarding scholarship date, examination form submission, etc.
Response: Many of them answered got updates in time.
9. Students were asked that your mentor does a necessary follow-up with an assigned task to you

Response: many of them gave answer it as every time.

10. Students were asked that share your experience of 24×7 application of social media for prompt mentoring initiative of your institution particularly during the pandemic (covid-19) in brief.
11. Response: Sstudentsanswered in descriptive manner where most of the students shown satisfaction about the practice and it really helped them throughout particularly during the Pandemic period.
